Mid term presentation

Student First Name: PRAVEENKUMAR	ECN supervisor(s): YANNICK AOUSTIN
Student Last Name: VASUDEVAN	External EMARO supervisor(s): GENTIANE VENTURE
	Co-SUPERVISOR : ARMANDO TACCHELLA

Date of presentation: ~~27/04/15~~ 01-05-2015				
List of participating people: Ass. Prof. Gentiane Venture Dr. Vincent Bonnet 13 Students from GVLab	Insufficient ☐	Sufficient ☐		Very Good ☑

Progress in the thesis	
Special measure to take	none continue like that.

Comment of supervisor(s)	Comment of student
Praveenkumar is pursuing his research at a great pace and his results at mid term are more than satisfying. His behaviour and research results exceed my expectations and I'm confident that he will obtain excellent research results, as well as consolidated program & environment for future use.	1) I have already developed the software framework which is distributed, that could be used for my platform 2) I am improving step by step the localization algorithm and the software architecture. 3) At the moment, I am examining the use of natural languages for defining the interaction scenario. 4) Once I complete the scenario definition, I will make tests and consolidate the results.
